

## Lincoln Hills Memories

The photos in the exhibit are amazing not just because of the beauty of our surroundings, but the fact that this outing had completely slipped my mind,

Yet there I was. with my parents and their friends. I can see everyone having a great time; because every time we were able to get to Lincoln Hills that's just what we had GREAT FUN!

I don't think I really knew the back story of how Lincoln Hills came to be, until I was older. I came to realize the sacrifice and the foresight that these wonderful people in northeast Denver were able to create .

But I do thank them all ,then and now for those still fighting to maintain this treasure for future generations.
